

We understand your primary concern is certainly your new assessed value. **Please take time to read this letter and additional insert. If you have questions, please follow the open book instructions.** The materials enclosed will provide information about the Interim Market Update to help you understand the process of assessing.

As the contracted assessors we used sales data up to January 1, 2024, to set fair and equitable assessments. **Wisconsin Laws require periodic market updates to keep assessments within 10% of actual market value.** This year's assessment changes have reestablished equitable and uniform values for all properties.

Due to significant *changes* in sale prices of real estate, it is necessary to make significant *changes* in assessed values to bring assessments in line with market values. **This market update has resulted in an overall community average increase of about 8%.**

It is important to understand that no additional taxes are generated or collected because of an increase in assessed value due to a market update. You will not automatically pay higher taxes due to a higher assessment (see 'Mill Rate' on insert). The property tax burden is redistributed after the market update based on all properties being assessed to fair market value.

OPEN BOOK SCHEDULE AN APPOINTMENT
