To: "Spilde, Danielle" <CLERKTREASURER@tn.pleasantsprings.wi.gov>, "rgreen@tn.pleasantsprings.wi.gov" <rgreen@tn.pleasantsprings.wi.gov>

Hi Maria and Dick,

Attached are the results from the Williams Drive speed study and traffic counts. Regarding the Speed results, below is what was observed and recommendations for each location:

Williams Drive – 125' N. of Yahara Road

- AADT: 1,406
- Current Speed Limit: 35 MPH
- 85th Percentile Speed: 42 MPH combined directions
- Recommendation
 - With the current conditions, the 85th percentile speed would indicate that a speed limit of 40 MPH would be appropriate for this road.
 - If maintaining the 35 MPH speed limit is desired, possible traffic calming measures may need to be taken to help lower the users traveling speed (See traffic calming measures below)

Williams Drive – 3,000' N. of Kegonsa Road

- AADT: 1,209
- Current Speed Limit: 45 MPH
- 85th Percentile Speed: 46 MPH combined directions
- Recommendation
 - With the current conditions, the 85th percentile speed would indicate that the current speed limit of 45 MPH is appropriate in this stretch.

Williams Drive – 200' N. of Skyline Drive

- AADT: 1,236
- Current Speed Limit: 35 MPH
- 85th Percentile Speed: 41 MPH combined directions
- Recommendation
 - With the current conditions, the 85th percentile speed would indicate that a speed limit of 35 MPH is acceptable, but 40 MPH would be most appropriate.
 - If maintaining the 35 MPH speed limit is desired, possible traffic calming measures may need to be taken to help lower the users traveling speed (See traffic calming measures below)

Williams Drive – 300' S. of Wildflower Road

- AADT: 525
- Current Speed Limit: 35 MPH
- 85th Percentile Speed Southbound: 36 MPH
- 85th Percentile Speed Northbound: 44 MPH
- 85th Percentile Speed Northbound: 42 MPH
- Recommendation
 - With the current conditions, the 85th percentile speed would indicate that a speed limit of 35 MPH is acceptable in the southbound direction, but is not having the same compliance in the northbound direction. The northbound

85th percentile speed is 44 MPH.

- If maintaining the 35 MPH speed limit is desired, possible traffic calming measures may need to be taken to help lower the users traveling speed (See traffic calming measures below)
- An additional recommendation would be to add advance signing notifying drivers that there is an upcoming speed limit change coming up. See an example sign below.

Traffic Calming Measures

- Lane narrowing: This involves narrowing travel lanes with pavement markings to create more space for bike lanes or pedestrians. It can also encourage drivers to be more alert and slow down.
- Urbanize the cross section: Adding curb and gutter can give the drivers a feeling of a narrower roadway which can help lower driver speeds.
- Signage: This can include vehicle activated signs or radar speed feedback signs that draw attention to a drivers speed.

Let me know if you have any questions.

Thank You,

Jeremy Rach
